

GENERAL INFORMATION

The sale will commence at 12.00pm.

All sheep sold are registered with Berrichon Sheep Society Ltd. Registration certificates will be handed from the office on payment on animals. Best of the Berrichon sale is an invitation production sale of in lamb ewes from some of the top UK flocks. All sheep will be sold in guineas (105p). Any unregistered sheep will be clearly announced before entering the sale ring.

HEALTH

The sheep are all from Maedi Visna Accredited flocks registered with the SAC Sheep & Goat Health Scheme.

INSPECTION

All sheep are open to inspection on the evening of 16th November and the morning of the 17th November. Alternatively, by private appointment, please contact vendors.

SCANNING RESULTS

All sheep that are scanned will have results printed in the catalogue and announced on the day; this is no guarantee of the numbers of lambs to be born, but purely an indication.

If the ewe proves not to be in lamb at the time of the sale and within 7 days after the sale the purchaser must give written notice to the auctioneer of his intention to return the animal supported by a veterinary's certificate which proves the ewe is not in lamb. The ewe can then be returned to the vendor for a full refund.

RESTRICTIONS

By prior arrangement, any purchaser prevented from taking delivery of any ewe by government restrictions, the vendors will keep them until such times as permission is granted. Whilst every care will be taken, ewes will be at purchaser's risk.

FURTHER INFORMATION can be found at www.berrichon.co.uk

SALE FORWARD

The heat of the summer seems to be long gone now, but it has left a good covering of autumn grass in most areas and drier conditions underfoot to maximize the most readily available and cheapest food source.

Berrichons thrive where others fail, with a strong mothering ability, easy lambing and lambs' ability to get up and go. The sheep on offer here are bred from many years of experience with older bloodlines being enhanced by the best of what Europe has to offer. You can buy with confidence knowing you'll be taking home a quality animal

INCLEDON

The females for sale from the Incledon flock are fathered by impressive sires who have been integral members to the flock over the past few years.

Rakefoot Nugget (WJC13 007) is the sire to a number of the females on offer. This ram was awarded Reserve Interbreed Champion at the North Devon Show in 2014.

Statesman Provider (TOM15528) is the sire to some of our other females for sale. Statesman Provider was awarded 3rd place at the Royal Three Counties Show in 2016.

Both rams are strong with great length, which is a trait apparent in their offspring.

The Incledon sheep for sale are in-lamb to Rakefoot Santa Claus (WJC17 001) and GBT17 01096 from the Goitre Flock. Both rams boast power and length and have been a welcome addition to our flock.

All females on sale are on the Heptavac P plus system and are vaccinated with Enzovax and Toxovax.

TOM15 528 Statesman Provider sire of lots 4 & 5

Rakefoot Nugget sire of lots 2,6, 25 & 30

ABER FLOCK

The Aber flock was established in 2012 with the purchase of three ewes at the Best of the Berrichon sale 2012 and continued to buy quality in lamb females each year at Worcester.

All ewes have run with Janos Titan from 8th August.

The young flock is becoming more established now and has got to a size where we can offer quality in lamb ewes for sale.

All ewes have been vaccinated with Enzovax and Toxovax and are on the Heptavac p plus system.

SWINCOMBE FLOCK

Although we have not shown this year “Swincombe” ewes have done extremely well; The highlight of which Windrush winning overall CHAMPION at the Royal Three Counties with a Swincombe ewe and Bryan Evans winning reserve overall Champion with another Swincombe ewe.

Congratulations to Ben Stayt and Bryan Evans on bringing out those two ewes so brilliantly.

Swincombe ewes also won prizes at other shows including The Great Yorkshire and Royal Welsh.

Most of the second group of catalogued ewes are in lamb to MRW11 004 Tregwynt Louis. We, and several other people, have thought for the last few years that Sue Powell has had the best packet of shearing rams at the Builth Sale; so when they sold the sire of many of those rams, we bought him, and he has left some of our best ram lambs this year.

The “Janos Sergio” (YKK17 086) ram is a large smart shearling, with excellent back and head and should breed some attractive shearlings with plenty of lift.

.WIN15 080 Windrush Professional **Sire of lots 20, 31,32,33,35 & 37**

WOODSTON

2018 has been a quiet year. Choosing to concentrate more on producing good quality lambs from little inputs.

Berrichons which will do on low inputs are traits we have been breeding for, for the last 20 years. Lower the cost of production to maintain margins, while producing the good quality lean lamb that the market requires.

Last year Incledon Porter has stood out for fat lamb production, with 79% of his offspring graded E or U and greater weights at all stages . We have used Porter again this year and the home bred Woodston Survivor, which has tremendous length and great tight skin, also being ARR ARR genotype.
